

Public Adjusters are there to assist homeowners through the very difficult process of filing and negotiating a claim settlement.

**The "Value of a Public Adjuster" is a phrase developed many years back with one goal in mind ... To help homeowners/property owners and insurance industry insiders realize there is help available right in their own community when they experience a property loss. Public Adjusters are local experts who can help get homes and prized possessions back to full RCV, Replacement Cost Value.**

## A Note From Steve:

I initially took interest in this area once meeting Leonard Costin. Sharing aviation and real estate interest we set out to do some business. That plan was interrupted when hurricane Irma hit my home. Regardless my interest in this area grew on the welcoming friendship Leonard extended. Whether it was flying in, driving in or RVing in, my family and I enjoyed this area and its great people many times. In the last year since Hurricane Irma ICS, myself and its professionals helped in over 300 claims of residential commercial aviation and marine losses. As a public adjuster I work with a team of professionals and a wealth of insurance knowledge to effect fuller, more complete recoveries. Inside is a list of results. It's for real. Let the people who know me -- and know you -- get us connected so I can effect a similar service Helping You!
